We have teamed up with some of the best cattle producers in the UK & around the world to bring you steaks from grass fed breeds aged on the bone for a minimum of 30 days and the American Black Angus, which is fed on a grain diet for the last 130 days to produce an incredible flavour with wonderful marbling.

We chargrill our steaks in a charcoal burning oven called a Big Green Egg. The oven reaches temperatures up to 400 degrees centigrade quickly sealing the meat, trapping in the juices & flavours. The result is beautifully charred meat on the outside but succulent, juicy and flavoursome on the inside.
